

HYOJOON (JOON) KIM

Department of Computer Science
University of Virginia

85 Engineer's Way
Charlottesville, Virginia 22904, USA

Personal website: <https://hyojoonkim.com>
Group website: <https://networkmech.github.io>
joonkim@virginia.edu

RESEARCH INTEREST

My research focuses on making computer networks easier to monitor, understand, troubleshoot, and configure. I enjoy designing fast and accurate mechanisms that analyze real-world traffic and extract useful information for network practitioners. I am passionate about designing and implementing better tools and systems for next-generation applications and networks.

EDUCATION

Georgia Institute of Technology, Atlanta, GA **Aug. 2015**
Ph.D., Computer Science
Thesis: *Facilitating Dynamic Network Control with Software-Defined Networking*
Advisor: Dr. Nick Feamster

Georgia Institute of Technology, Atlanta, GA **May 2010**
M.S., Computer Science
Master Project: *Resonance: Dynamic Access Control for Enterprise Networks*
Advisor: Dr. Nick Feamster

University of Wisconsin-Madison, Madison, WI **Aug. 2005**
B.S., Computer Science

WORK EXPERIENCE

University of Virginia, Charlottesville, VA **Jul. 2023 – Present**
Assistant Professor (Tenure Track), Department of Computer Science Jul. 2023 – Present

Princeton University, Princeton, NJ **Jun. 2015 – Jul. 2023**
Associate Research Scholar, Department of Computer Science Apr. 2020 – Jul. 2023
Cyber Infrastructure Engineer, Princeton Institute for Computational Science and Engineering Jun. 2015 – Jul. 2023

Hewlett-Packard Research Labs, Palo Alto, CA
Research Intern (part-time), Networking and Mobility Group Aug. 2014 – Jan. 2015
Research Intern, Networking and Mobility Group Jan. 2014 – May 2014
Research Intern, Networking and Mobility Group May 2012 – Aug. 2012

Future Systems, Inc., Seoul, South Korea **Sep. 2005 – Apr. 2008**
Research Engineer, Research & Development Division Sep. 2005 – Apr. 2008

RESEARCH PROPOSALS AND GRANTS

Tools for Programming Distributed Data-plane Measurements

- https://www.nsf.gov/awardsearch/showAward?AWD_ID=2223515
- Sponsor: National Science Foundation
- Principal Investigator(s): David Walker (PI), **Hyojoon Kim (Co-PI)**, Jennifer Rexford (Co-PI)
- Total Award Amount: \$600,000
- Start and End Date: September 1, 2022 – August 31, 2025 (extended 1 year)

MENTORING EXPERIENCE

PhD students

- Di Zhu (Spring 2024 –)
- Md. Mahir Ashhab (Spring 2025 –)
- Tawsif Shahriar (starts in Fall 2025 –)
- Siyuan Wu (starts in Fall 2025 –)
- Boyang Yan (starts in Fall 2025 –)

Master students

- Jianxi Chen (2025 –)

Undergraduate students

- Lucas Kohler (2024 – 2025)
- Hieu Vu (2024 – 2025)
- Brian T. Xiao (2024 – 2025)
- Hyunkeun O (2023). First job: Uber

Other advisees

- Undergrad research and thesis (Princeton): Sherry Bai (2019), Jason Kim (2020-2021), Daniel Jubas (2020-2021)
- Led to two conference publications [4, 9]
- Ph.D. students (Princeton): Satadal Sengupta (2019 - present), Mengying Pan (2020 - present)
- Led to two conference publications [5, 6]

TEACHING EXPERIENCE

Teaching

- **Instructor: CS/ECE 4457: Computer Networks (undergrad)**
University of Virginia
Spring 2024, Spring 2025
- **Instructor: CS 6501: Special Topics in Software-Defined Networking and Programmable Networks (grad)**
University of Virginia
Fall 2023
- **Instructor: CS 7457: Computer Networks (grad)**
University of Virginia
Fall 2024
- **Instructor: Data Storage & Transfer: Basics and Best Practices**
Research Computing mini course (2 hours), Princeton University
Mar. 2017, Oct. 2017, Feb. 2018, Jan. 2020, Oct. 2020, Nov. 2021, Jan. 2022
- **Teaching Assistant: Software Defined Networking (by Professor Nick Feamster)**
Massive Open Online Courses (MOOC). Coursera. 2014

INVITED TALKS

Hydra: Effective Runtime Network Verification

- ACM SIGCOMM. September 2023

Building Networks That We Can Better Understand and Control

- University of Virginia. March 2023
- University of Texas - Arlington. February 2023

Detecting Nation-State Routing Attacks with Network Telemetry

- Research Experience for Undergraduates (REU) Seminar. Intel/Princeton University. July 2022

Keynote Speech: Programmability in My Toolbox

- IEEE INFOCOM Computer and Networking Experimental Research using Testbeds (CNERT) Workshop. May 2022

Princeton P4 Campus

- The Programmable Switches Workshop. University of South Carolina. February 2022
- The Network Programming Initiative. May 2020
- The Cyber Infrastructure Engineering Lunch & Learn Series. Energy Sciences Network (ESnet). February 2020

Software-Defined Border Router on Campus

- The Cyber Infrastructure Engineering Lunch & Learn Series. Host: Energy Sciences Network (ESnet). February 2020
- The 27th Korean American Scientists and Engineers Association Northeast Regional Conference. March 2018
- Internet2 Technology Exchange. October 2017

Kinetic: Verifiable Dynamic Network Control

- USENIX Networked Systems Design and Implementation (NSDI). May 2015
- North American Network Operators' Group (NANOG) 62. October 2014

The Evolution of Network Configuration: A Tale of Two Campuses

- ACM Internet Measurement Conference (IMC), November 2011
- Internet2 Fall Member Meeting. November 2010

PROFESSIONAL SERVICES

Technical Program Committee

- USENIX Symposium on Networked Systems Design and Implementation (NSDI): 2025, 2026
- ACM Internet Measurement Conference (IMC): 2024, 2025
- Euro P4: 2022
- ACM Symposium on SDN Research (SOSR): 2021, 2022
- ACM/IEEE Symposium on Architectures for Networking and Communications Systems (ANCS): 2021

External Reviewer and Journal Review

- IEEE INFOCOM, IEEE/ACM Transactions on Networking (TON), ACM SIGCOMM Computer Communication Review (CCR), ACM Computing Surveys, IEEE Communications Magazine, IEEE Communications Letters

Organizing and Leadership Roles

- **Organizer**, Open Networking Foundation NG-SDN Tutorial Workshop at Princeton, 2019
- **President**, Georgia Tech Computer Science Korean Student Association, 2011–2012
